Tavoli per ufficio che si qualificano per le forme essenziali, l'accurato disegno dei particolari costruttivi e l'uso di materiali selezionati. Solidi, stabili e leggeri, questi elementi modulari, disponibili in diverse forme e dimensioni, sono progettati per rispondere alle esigenze di un ambiente dinamico, capace di modificarsi in continuazione. Un luogo di lavoro dove convivono attività operative, di comunicazione, di relazione... Componenti d'arredo flessibili e funzionali, che permettono ampie possibilità compositive. Pochi componenti di un unico sistema costruttivo si combinano con semplicità per risolvere ogni aspetto progettuale. Scrivanie e tavoli riunione per gli spazi contemporanei.

Office tables that stand out for their simplicity of form, carefully designed structural details and use of selected materials. Solid, stable and lightweight, they are available in modular shapes and sizes designed to accommodate the requirements of a dynamic, continuously changeable environment. Their flexible and functional nature permit endless compositional possibilities for a workplace that simultaneously supports task work, communications, and personal interaction. The simple modular components combine with ease using a single assembly system, for desks, workstations and conference tables well-suited to the needs of the modern office.

Qualificato dal bordo in massello e dalla finitura superficiale in legno naturale, il piano di lavoro del tavolo scrivania è attrezzato con bussole passacavi collegate al cestello sottopiano. Le gambe con sezione a goccia in estruso di alluminio rivestito in legno sono disponibili sia nella versione fissa che regolabile in altezza.

Table-desk with top in natural wood finish and solid wood edging, fitted with grommets for routing power and data cables to the tray below. The legs, in teardrop-section extruded aluminum encased in wood, are available both in fixed-height and adjustable-height versions.

Le postazioni di lavoro sono separate da uno schermo divisorio a media altezza nelle stesse finiture del tavolo (legno naturale o laminato). Il profilo superiore in alluminio è predisposto per l'aggancio di mensole, contenitori pensili (raccolgitori, vaschette) e braccio snodato per il fissaggio del monitor.

The workstations are separated by a mid-height divider panel in the same finish as the table (natural wood or laminate). The aluminum strip along the top of the panel is designed for mounting shelves, containers for small items (folders, trays), and a hinged monitor support arm.

Il tavolo scrivania è disponibile anche nella versione con piano di lavoro in laminato plastico grigio platino e gambe in estruso di alluminio verniciato nello stesso colore. Il cestello sottopiano per la raccolta dei cavi di alimentazione delle attrezzature multimediali è facilmente accessibile mediante raffinate bussole metalliche con coperchio a filo piano.

The table-desk is also available with worktop in platinum gray plastic laminate and legs in extruded aluminum, painted in the same color. The under-desk tray for power and data cables is easily accessible by means of elegant metal grommets with flush covers.

Unifor ha ottenuto le certificazioni
UNI EN ISO 9001:2008
e UNI EN ISO 14001:2004.

I prodotti illustrati nel presente catalogo
sono conformi all'allegato DLGS
81:2008 e rispondenti alle principali
norme applicabili ai diversi tipi
di prodotti.

I prodotti descritti nel catalogo sono
composti da materiali in classe E1
(a basso contenuto di formaldeide),
e hanno ottenuto la certificazione
Greenguard®.

*Unifor has obtained UNI EN ISO
9001:2008 and UNI EN ISO
14001:2004 certification.*

*The products illustrated in this catalog
are in conformance with the Italian
decree law DLGS 81:2008 and with all
of the principal regulations applicable
to the various types of products.*

*The products described in this catalog
are made with class E1 materials
(low formaldehyde content), and are
Greenguard® certified.*
