# OUR COMPANY

We are a global design brand that envisions products for the ways we live.

Founded in 1989 in Monastier di Treviso, Italy, Arper has grown into an international voice in design. We are family owned and independently run, guided by strong values and deep sensitivity to those who use our products everyday.

Life is a constant conversation with the environment around us. As the boundaries of our world melt away, work and home become one, and we are compelled to act with agency, we are all presented with the same question: how do we want to live? This project of living inspires our work and our vision.

# WHAT MAKES THE PROJECT OF LIVING?

How do we want to live now? More responsibly.  
More expressively. More connected.  
The world is in constant change, and the solution we might  
need today might not be what we need tomorrow.  
To respond and adapt, Arper creates the strategies for a  
world in flux — shaping spaces and solutions, forwarding  
sustainable practices, pursuing new product innovations,  
and cultivating culture and ideas with thoughtful, life-  
centered design.  
We're thinking holistically: strategies instead of products,  
spaces instead of collections, the planet instead of human  
interest alone.  
Together, in dialogue with our clients and partners, we  
design the world we want to live in. This is what makes the  
project of living.

# ARPER FOR HEALTHCARE

Hospitals and spaces of healing must attend to the vital needs of three very different populations. Patients receiving treatment seek out dignity, ease, and humanity in the face of their vulnerability. Visitors need spaces for communion, celebration, grief, quiet, and community. And medical practitioners require spaces that allow for agility, dexterity, respite, and the highest standards of technological advancement. As the lines between technology, lightness, and comfort become increasingly compounded, these complex spaces can benefit from Arper's flexible solutions and softer approach —one that always prioritizes people's needs, in the face of any adversity.
