PAUL

Design Vincent Van Duysen, 2016

Paul is a set of elegantly proportioned sofas with reassuring lines, elements that emphasize Vincent Van Duysen's expressive rationality. The design is emphasized by the particular armrest-back stitching in continuity with the shape of the foot. Exclusively for the Paul sofa system, the project marks an important step towards the use of more environmentally friendly goods. The fibre is synthetic, in 100 % recycled and biodegradable polyester. Designed to return to nature, it provides a holistic and sustainable solution for product wear and eventual end-of-life.

Paul è un sistema di sedute dalle proporzioni eleganti e dalle linee rassicuranti, elementi che sottolineano la razionalità espressiva di Vincent Van Duysen. Il disegno è enfatizzato dalla particolare cucitura bracciolo-schienale in soluzione di continuità con la sagoma del piedino. In esclusiva per il sistema di divani Paul, il progetto segna un passo importante verso l'utilizzo di materiali sempre più vicini all'ambiente. La fibra è sintetica, in 100% poliestere riciclato e biodegradabile. Progettata per tornare alla natura, rappresenta una soluzione olistica e sostenibile per l'usura e l'eventuale fine vita del prodotto.

REFLECT FABRIC BY KVADRAT
TESSUTO REFLECT BY KVADRAT

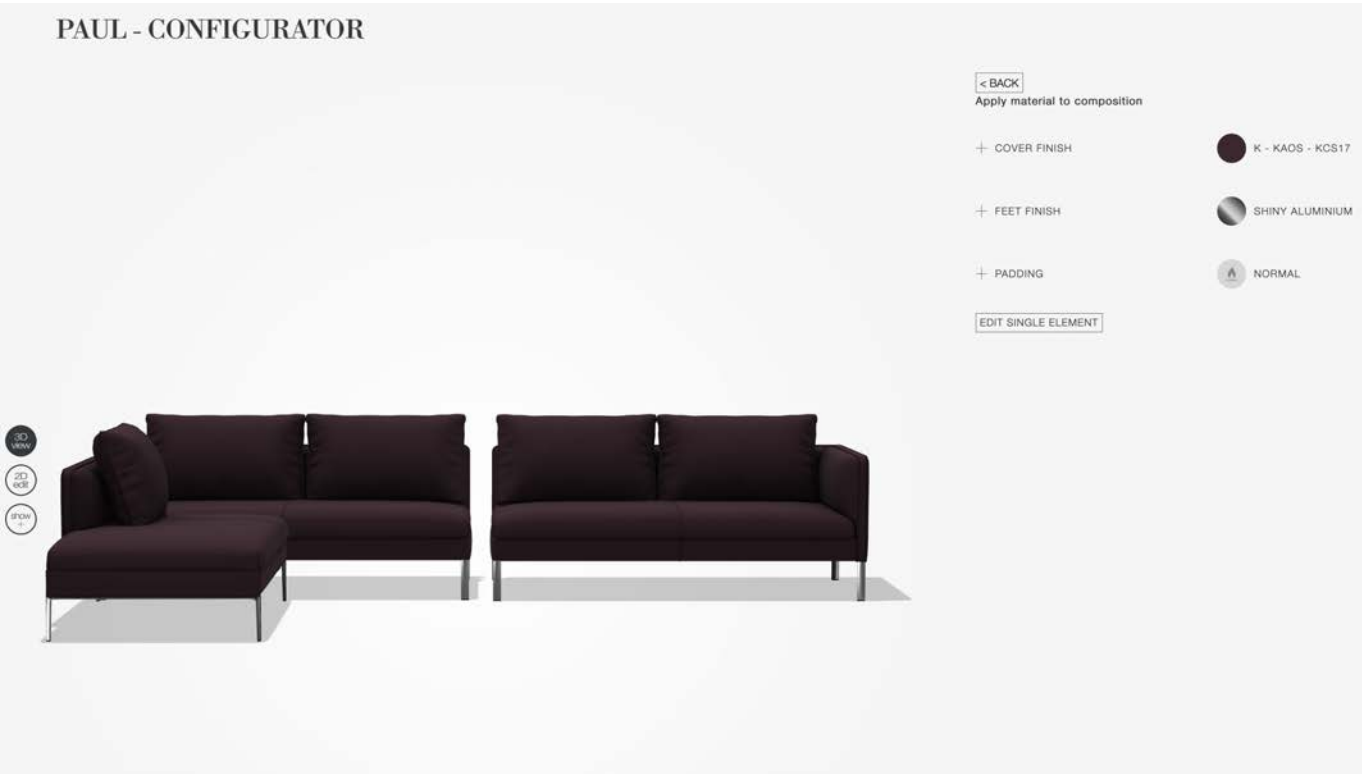

The Paul New Eco series is further elevated by the inclusion of the Reflect textile, a collaborative creation with Kvadrat, skillfully designed by Patricia Urquiola. With its refined diagonal pattern and a palette of 23 colors derived from 100% recycled PET bottles, Reflect exemplifies our dedication to sustainability without compromising on style or quality. Moreover, the manufacturing process of this fabric minimizes energy consumption, chemical usage, and CO2 emissions, setting a new standard for environmentally conscious design.

La serie Paul New Eco è ulteriormente arricchita dall'utilizzo del tessuto Reflect per il rivestimento, messo a punto in collaborazione con Kvadrat, su progetto di Patricia Urquiola. Con il suo raffinato motivo diagonale e una tavolozza di 23 colori, Reflect è un filato riciclato al 100% ottenuto da bottiglie in PET che esemplifica la nostra dedizione alla sostenibilità senza compromettere stile e qualità. Il suo processo di produzione comporta un minor uso di energia e sostanze chimiche, e una minor produzione di emissioni di CO2 rispetto a quello del poliestere vergine, stabilendo un nuovo standard per un design rispettoso dell'ambiente.
