

## Press Release

### **Jaan Silent Sofa.**

Design: EOOS.

Oasis in open space

Ground and air. Strength and lightness. Volume and clean lines. Comfortable upholstery floating over understated legs. Distinction with discretion. The best of both worlds.

Closed quarters in an open office. Jaan Silent Sofa creates private islands: in a workspace, a lounge or at an airport. Everywhere we live, work, travel and are on the move, the Silent sofa structures space, issuing fine invitations – for a spontaneous get-together in a small team, a creative session or quite simply five minutes of ‘me’ time.

### **The design story**

The more open the design of our working worlds and public areas, the more significant areas of retreat become. A sofa and a bench were to be designed for Jaan Silent that would give maximum privacy – without overloading a room. The solution consists of screens with a new kind of construction made of fine upholstery, laminated wood and aluminum. Jaan Silent Sofa was developed entirely with a focus on its use. The system is flexible, extendible and can be combined individually. The Jaan Silent Sofa with light, soft upholstery and a comfortable seating space. The Jaan Silent bench with formal upholstery and more compact dimensions. The backs and sides of the screens come in different lengths and depths, making it possible to realize private U shapes, semi-open L shapes or large open room dividers. This results in a private space in an open office. The best of both worlds.

**We would greatly appreciate a courtesy copy. Thank you.**

## Press Release

### About EOOS

The Austrian designers Martin Bergmann, Gernot Bohmann and Harald Gründl run their atelier in Vienna and work in projects from Milan to Toronto, London to New York, Berlin to Herrenberg. EOOS draws on the archaic and creates visionary pieces. They observe human rituals, sense desires and instincts, and design furniture to suit life.
