# CHAIRIK Upholstery

## Fabric

All Charik models can be configured with seat upholstery, front upholstery, full upholstery or thick-full upholstery. Montana Furniture offers a wide range of fabrics from quality conscious suppliers, such as Kvadrat and Gabriel.

## Leather

Montana Furniture offer leather upholstery from quality suppliers such as Sørensen Leather and Nevotex.

Pigmented leather (i.e. Ultra): Corrected leather that has been given a surface treatment. The leather is very durable and easy to maintain. Resists stains and provides a homogeneous look.

Aniline leather (i.e. Elegance and Copenhagen): Made from the best raw hides. The natural surface has been preserved untreated for optimal comfort. Daily use gives the leather its own unique character and personality.

To see the full colour range: visit the suppliers' own websites or drop by Montana Furniture' showroom in Copenhagen to view the sample folders.

Requesting other colors than the standard colors on leather is possible when using whole hides.

Note: The price groups according to fabric, leather or material qualities are aligned with each product line. Hence, the content of these price groups may vary.

# KEVI Upholstery

## Shells whit upholstery

inner side upholstery is only available on shells in Black Lazure and veneer.

## Fabric

The upholstered Kevi models come as either a standard upholstery or an exclusive full upholstery version, where both the edge, seat, and the back of the backrest are upholstered in the selected material. Montana Furniture offers a wide range of fabrics from quality conscious suppliers, such as Kvadrat and Gabriel.

## Leather

Montana Furniture offer leather upholstery from quality suppliers such as Sørensen Leather, Tärn sjö and Nevotex.

Pigmented leather (i.e. Ultra): Corrected leather that has been given a surface treatment. The leather is very durable and easy to maintain. Resists stains and provides a homogeneous look.

Aniline leather (i.e. Elegance and Copenhagen): Made from the best raw hides. The natural surface has been preserved untreated for optimal comfort. Daily use gives the leather its own unique character and personality.

To see the full colour range: visit the suppliers' own websites or drop by Montana Furniture' showroom in Copenhagen to view the sample folders.

Requesting other colors than the standard colors on leather is possible when using whole hides.
